MEMORANDUM TO COUNCIL

To: Mayor and City Council Members
From: Cameron Dean, Planning Director
Through: Marjie Veeder, Acting City Manager
Date: October 8, 2024
Re: Resolution 2024-41 Authorizing the City Manager to sign a 20-year lease with US Department of Transportation, Federal Aviation Administration for antenna space on Haystack Hill

SUMMARY: The Federal Aviation Administration (FAA) leases space for communications equipment on Haystack Hill and is seeking an additional twenty (20) year term. Adoption of Resolution 2024-41 authorizes the lease. Staff recommends adoption.

PREVIOUS COUNCIL ACTION: On January 25, 2005, Council adopted Resolution 2005-3, authorizing the City Manager to sign a 20-year lease with US Department of Transportation, Federal Aviation Administration for antenna space on Haystack Hill.

BACKGROUND: Haystack Hill is a popular location for wireless communications infrastructure, and the City leases out space to both public and private entities there. The FAA has had a lease since 1999, where it operates a Remote Communications Outlet (RCO), an air-to-ground communications system with transmitters, receivers and other ancillary equipment serving a flight advisory facility. The current lease has no options for renewal, so a new lease is required. Council authorization is required for all leases exceeding five (5) years.

DISCUSSION: The FAA's lease on Haystack Hill ended on September 30, 2024. The FAA has requested a lease for twenty (20) years, with similar terms as the prior lease.

The prior lease rate is \$270.10 annually; the new lease will begin at \$453.05 per year, with the rate reviewed and adjusted every five years based on changes in market value.

The new lease includes a termination clause for the City if it chooses to redevelop the Haystack communications site. Similar language has been included in recent leases on Haystack to give the City more flexibility in the area in the future as discussed at the Council meeting on September 14, 2021. FAA has a relatively small lease space, approximately 679 square feet, within the fenced area next to the City's own equipment.

While the City does not have a policy guiding the terms of leases on Haystack, most leases are also twenty (20) years in term. City Code recommends leases be no more than thirty years unless City Council determines there is a benefit to a longer lease (§ 7.12.020).

ALTERNATIVES: Council may elect a different lease term. Council could also choose not to approve a lease, but this is not recommended.

FINANCIAL IMPLICATIONS: Discussed above.

LEGAL: The City Attorney has reviewed the attached draft lease.

STAFF RECOMMENDATION: Staff recommends adoption of Resolution 2024-41.

PROPOSED MOTION: I move to adopt Resolution 2024-41.

CITY MANAGER COMMENTS: It is important that the FAA maintain their Remote Communications Outlet. The RCO is a remote radio transceiver for communication capabilities and is used to obtain weather briefings, file flight plans and receive other flight information. I concur with the Staff Recommendation.

A. The offeror or Contractor warrants that, to the best of the Contractor's knowledge and belief, there are no relevant facts or circumstances which could give rise to an organizational conflict of interest (OCI), as defined in the FAA Acquisition Management System, "Organizational Conflicts of Interest (T3.1.7)", or that the Contractor has disclosed all such relevant information.

B. The offeror or Contractor agrees that if an actual or potential OCI is discovered after award, the Contractor must make a full disclosure in writing to the Contracting Officer. The disclosure must include a mitigation plan describing actions the Contractor has taken or proposes to take to avoid, mitigate, or neutralize the actual or potential conflict. Changes in the Contractor's relationships due to mergers, consolidations or any unanticipated circumstances may create an unacceptable organizational conflict of interest which may necessitate disclosure.

C. The FAA reserves the right to review and audit OCI mitigation plans as needed after award, and to reject mitigation plans if the OCI, in the opinion of the Contracting Officer, cannot be avoided, or mitigated.

D. The Contracting Officer may terminate this contract for convenience in whole or in part, if it deems such termination necessary to avoid an OCI. If the Contractor was aware of a potential OCI prior to award or discovered an actual or potential conflict after award and did not disclose or misrepresented relevant information to the Contracting Officer, the Government may terminate this contract for default, debar the Contractor from government contracting, or pursue such other remedies as may be permitted by law or this contract.

E. The Contractor further agrees to insert provisions which must conform substantially to the language of this clause including this paragraph (d) in any subcontract or consultant agreement hereunder.

The Contractor agrees to remediate at its sole cost, all other hazardous substance contamination found on the FAA facility premises.
