### CITY MANAGER'S REPORT

TO: Mayor Tutiakoff and City Council Members

FROM: William Homka, City Manager

DATE: May 28, 2024

### • EMPLOYEE TRAINING

- Harassment, Bullying & Discrimination: The Administration Department worked with our liability insurer, APEIG, to customize training sessions for our employees, as well as our supervisors, managers and directors, regarding the city's policy against workplace bullying, harassment and discrimination. We are offering numerous sessions for this mandatory training, with the goal of all city employees taking part in the training before the end of the fiscal year. The purpose of the policy and the training, is to prevent harassment, discrimination and bullying within the city workplace, based upon a certain class or status, including race, color, religion, age, sex, gender, pregnancy, marital, ethnicity, national origin, disability, veteran, or upon any other status protected under State of Federal law. This Policy establishes standards for defining and preventing harassment made upon these bases, establishes a means for reporting and complaining about harassment, and defines what disciplinary action will be taken by the city when prohibited behavior has been found to have occurred.
- CPR/First Aid: To date, 86 employees in City Hall, DPW/DPU Facilities, PCR, and Ports received CPR/First Aid training. DPS training is currently in the planning stages. Both the American Heart Association and the Red Cross courses are OSHA compliant, and there are city employees certified in both, so all training was coordinated and performed in-house at minimal cost. Training will occur every two years. Thanks Amanda and UFD for getting us up to speed.

#### OSHA Training:

- End of January 2025, Risk Management provided training to DPU Supervisors, who
  graciously agreed to be our first to train using the process developed by Risk Management
  to ensure OSHA across the organization.
- As of May 15, All DPU utilities divisions have a good start on their online required core courses, which have a completion deadline of June 30, 2024. All Water Department employees have completed their core classes and are ready for job hazard analyses to determine courses required specifically for the work they perform.
- Next, Risk Management will be working with DPW Supervisors. That planning is in the
  works with Scott Brown and will commence about mid-June. Risk Management will
  repeat this process with other department supervisors and the goal is to have all
  departments online with the training program by end of 2024.
- CITY CLERK STAFF TRAINING: Both our City Clerk and Deputy City Clerk are scheduled to attend
  Professional Development training in June through the Northwest Clerks Institute. The training will be
  held in Tacoma, Washington.

- Program (KDF) and the Eagles View Elementary
  Preschool Class took part in a life jacket safety
  training. Ports Officer, Tim Mahoney, is certified by
  the Alaska Marine Safety Education Association
  (AMSEA) to conduct educational trainings on Life
  Jacket Safety. So on May 16th, 2024 the Preschool
  Class gathered at Carl E. Moses Boat Launch near the
  KDF Life Jacket Loaner Box and held a life jacket safety
  training and held tours around the Ports Rescue Boat,
  the TideBreaker. Leo Dacio and Trever Schliebe
  recorded PSA's from KDF with KUCB, in Tagalog and English.
- GRASS FIRE: On May 18th at approximately 2045 hours, the Unalaska Fire Department
  responded to a report of a vegetation fire located in the 200 BLK of Steward Road. Upon arrival,
  our firefighters encountered a wind-driven fire measuring approximately 100 feet by 300 feet,
  advancing north toward East Broadway. Thanks to the swift and professional efforts of our
  team, the fire was quickly contained, and no structures sustained any damage. We extend our
  gratitude to the firefighters for their prompt action and dedication to the safety of our
  community.

# City of Unalaska | Department of Parks, Culture and Recreation Advisory Committee Meeting Minutes for April 15, 2024

Members present: Thomas Roufos, Greg Peters, Ben Knowles, Jill Spetz, Noel Rea, Ryan Humphries

The Parks, Culture and Recreation Advisory Board Meeting was called to order at 5:30 p.m. on April 15, 2024, in the conference room at PCR

Recognized visitors to the meeting, Jolene Longo, and Jeff Milkes

The Advisory Board reviewed the minutes of March 18, and it was a unanimous vote to approve.

#### **New Business**

The Advisory Board met over Teams with Jeff Milkes of Berry Dunn to go over the results of their visit to Unalaska. See attached Power Point.

Jolene Longo, made a presentation on the Kelty field improvements. The second grass seeding will be completed this spring, with league play starting by August. The soccer equipment has arrived and is at Kelty Field. Also, with the purchase of the soccer equipment we also received a Black Stone Grill that will also be used for events at the park.

Roger reviewed the Departments plans for the pool improvements. A liner has been suggested by maintenance. We know the school boilers will not arrive in time for installation before school starts. So, the pool repairs will need to be done before then. PCR is looking for quotes before a final decision is made.

#### **Old Business**

The Social District came up again and it was agreed that Roger and Thomas would work on a letter or a memo to the Mayor and Council. We need to have a clear direction and a way to move forward. Meeting with the police and fire and city management need to happen. The PCR Board made a motion by Ben, and seconded by Noel, to move forward with the social district and look at changing the current City Code if necessary. Motion passed 6-0.

### **Committee Members Comments**

Noel, asked for more towels in the pool, or at lease a better system of getting them to people as they enter the facility.

Jill wanted gym mats cleaned better in the gym at PCR.

Next meeting is May 20, 2024 Adjournment at 6:40 p.m.

#### MEMORANDUM TO COUNCIL

To: Mayor and City Council Members
From: Erik Hernandez, Acting Utilities Director

Through: William Homka, City Manager

Date: 5/14/2024

Re: Ordinance 2024-07: Creating Budget Amendment #7 to the fiscal year 2024,

increasing the Electric Distribution Operating Budget by \$350,000 to cover financial shortfall of professional services agreement with OptimERA Inc. and the

Electric Admin Budget by \$130,000 for the EPS consulting services.

**SUMMARY**: Ordinance 2024-07 will increase the Electric budget to cover additional expenses and shortfalls not included in the original budget.

#### **PREVIOUS COUNCIL ACTION:**

**Linemen Contract:** Resolution 2022-40 authorized the City Manager to enter into an agreement with OptimERA. Resolution 2022-25 authorized the City Manager to sign the negotiated Collective Bargaining Agreement (CBA) between the City of Unalaska and Public Works and Public Utilities Employees IUOE, Local 302. Resolution 2023-46: Authorized the City Manager to enter into an agreement extension with OptimERA Holdings Inc. for Electric Lineman Services

**EPS Contract:** Resolution 2024-03 Authorized the City Manager to enter into a contract with Electric Power Solutions, Inc., in an amount not to exceed \$130,000 on February 13, 2024.

#### **BACKGROUND**:

**Lineman Contract:** The Electric Distribution's original operating budget did not include funding for all costs associated with the contract extension authorized November 28, 2024. Since the beginning of FY24, OptimERA has been able to fulfill their contractual obligation by providing a lineman chief and three rotating linemen staff. The proposed contract estimated coverage at \$1,514,165, the total costs in professional services for OptimERA's services for FY24 is estimated at \$1,321,365.21.

**EPS Contract:** After Council did not consider a fourth amendment to the OCCP PPA staff began re-evaluating its power needs and alternatives to meet current and future demands. In order to proceed in a direction that was in the best interest of the City and to ensure informed decisions were made for the successful growth of the organization, a proposal was requested from EPS for their consulting services to evaluate the City's power needs and potential development.

#### **DISCUSSION:**

**Lineman Contract:** This increase will allow the Electric Distribution Division to continue utilizing OptimERA's lineman services through the end of the fiscal year.

**EPS Contract:** In order to proceed with EPS' proposal to evaluate the City's power needs, adequate funding needs to be allocated. As mentioned in the previous memo, there are ample funds available in the Electric account.

<u>ALTERNATIVES</u>: Council may choose approve, disapprove or modify the requested amounts. However, funding the lineman contract is highly recommended to ensure proper operation of the power grid, limiting potential power outages as well as other potential liabilities related to disruption in service. If Council chooses to modify the amount requested for the lineman contract non-emergency work and non-personnel spending will be halted.

**FINANCIAL IMPLICATIONS:** A total of \$480,000 from the Electric Proprietary fund will be allocated to the Electric Distribution Operations and Electric Admin budgets.

**LEGAL**: N/A

**STAFF RECOMMENDATION:** Staff recommends approval.

**PROPOSED MOTION:** I move to introduce Ordinance 2024-07 and schedule it for public hearing and second reading on May 28, 2024.

**<u>CITY MANAGER COMMENTS</u>**: I support staff's recommendation.

#### **ATTACHMENTS**:

Resolution 2023-46 Resolution 2024-03

#### **MEMORANDUM TO COUNCIL**

To: Mayor and City Council Members Fr0m: William Homka, City Manager

Date: November 28, 2023

Re: Resolution 2023-46: Authorizing the City Manager to enter into an agreement

extension with OptimERA Holdings Inc. for Electric Lineman Services

**SUMMARY:** OptimERA Inc. first supplemented the City of Unalaska Line Crew in February, 2022, when Acting Lineman Chief Davlin Hall left on a 30-day vacation. Mr. Hall resigned in August, 2022 and the City needed to staff the position with qualified services to maintain the island's electric service. In October, 2022 Council adopted Resolution 2022-40 authorizing the City Manager to enter into an agreement with OptimERA for a period of one year or until such time the City hires a Utility Lineman Chief and at least one Utility Linemen to supplement the existing Lineman Apprentice. The one year expired in October, 2023 and the City Manager seeks approval to extend the contract period one year at a cost of \$1,514,164.

**PREVIOUS COUNCIL ACTION:** Resolution 2022-40 authorized the City Manager to enter into an agreement with OptimERA. Resolution 2022-25 authorized the City Manager to sign the negotiated Collective Bargaining Agreement (CBA) between the City of Unalaska and Public Works and Public Utilities Employees IUOE, Local 302.

**BACKGROUND:** Employee attrition in the Line Crew combined with unsuccessful recruitment has resulted in just an Apprentice remaining in the division. Starting in August, 2019, the Department of Public Utilities began losing Line Crew. By 2022 four linemen resigned and the vacancies were never filled. When the last lineman left in August, 2022 the City had no resources available internally to maintain the electric distribution system.

In February, 2022 the City learned it can supplement the Line Crew when necessary to maintain essential operations. We hired OptimERA to cover the Line Chief's vacation and provide continuous journeyman supervision of the apprentice per the City's Standards of Apprenticeship developed together with the U.S. Department of Labor. Additionally, the contract included On-Call/Standby to provide 24-hour coverage on outage recovery.

In May, 2022 the lineman resigned so the City again retained OptimERA to staff the Line Crew division and oversee the apprentice. The pricing increased significantly as any work exceeding \$25,000 had to comply with Laborers' and Mechanics' Minimum Rates of Pay as required by Title 36 AS 36.05 & AS 36.10 published by the Alaska Department of Labor. The contract was paid by transferring funds within the Line Repair & Maintenance Division FY22 Budget Salaries & Wages to Other Professional Services.

**<u>DISCUSSION</u>**: Over the past few months the City has been successful in filling many vacant positions. However, we have had no success in filling the Line Crew positions. The OptimERA contract provides the required services and assists the Department of Public Utilities with maintaining the electric distribution system. Two of OptimERA's employees are former City linemen employees.

Discussions to negotiate a new contract were initiated in August, 2022. At that time Matt Scott presented the City administration with OptimERA's request for a five-year contract period. OptimERA is having difficulty filling the positions due to the short contract period because most many do not want to travel so far to work for just 12 months or less. A longer contract term would widen the pool of candidates.

In response to OptimERA's five-year proposal, the City Manager proposed to extend the one-year contract that expired in October. We are on a month to month basis per that contract. The City desires to acquire Line Men services through the public bidding process. The 2022 contract was sole sourced due to the short notice caused from the Line Men resignation in August, 2022. We have not completed an assessment necessary to form a City rebuild plan for the Line Crew division.

The proposed contract price has increased \$508,564, from \$1,006,200 to \$1,514,165. The increased costs are associated with travel and housing for the employees as well as anticipated wage increases. OptimERA has experienced difficulty sourcing coverage for some of the same reasons the City experiences in recruiting, including the remote location and the weather. Other factors identified per OptimERA include:

- Filling positions has been difficult nationally, statewide, and particularly locally.
- Full staffing was achieved for only 1.5 months.
- Efforts to introduce rotational schedules increased administrative overheads.
- Short employment term creates doubt with potential candidates.

The City would like the one-year extension to allow more time to prepare an analysis of factors we need to overcome in order to rebuild its Line Crew. The results should help plan a strategy to lead us out of this situation. Information from the plan will assist our future recruiting efforts. The City will issue a Request for Proposals for three (3) and five (5) year terms to continue supplementing the Line Men division with external, professional services. During that time the City intends to rebuild the Line Man division.

#### **ALTERNATIVE**:

1. The City could disband the Line Crew Division and engage in long term contracting to deliver power distribution services to Unalaska. This is not recommended due to mandatory PERS contributions on behalf of the displaced employees.

**FINANCIAL IMPLICATIONS**: A fully staffed Line Crew Division under the new 302 Contract requires approximately \$1 million in annual funding. This contract extension will cost \$1,514,164.

**LEGAL**: Contract and Extension have been reviewed by the City Attorney.

**STAFF RECOMMENDATION:** Staff recommends Council pass and adopt Resolution 2023-46, authorizing the City Manager to enter into an agreement extension with OptimERA, Inc. for continued electric lineman services.

**PROPOSED MOTION:** I move to adopt Resolution 2023-46.

**<u>CITY MANAGER COMMENTS</u>**: I request approval of this resolution.

Re: Second amendment to Electrical Support Contract # 22-05-60304A

#### **PROPOSAL**

#### 2023 CITY OF UNALSKA ELECTRICAL UTLITY SUPPORT CONTRACT

#### 1. BACKGROUND:

Over the past 18 months, we've worked with the City of Unalaska Utility to provide emergency and supplemental staffing for the Electric Line Department. Our current 12-month contract aimed to offer two additional line positions. However, we've faced significant challenges:

- Filling positions has been difficult nationally, statewide, and particularly locally.
- Full staffing was achieved for only 1.5 months.
- Efforts to introduce rotational schedules increased administrative overheads.
- Uncertainty of employment term crated doubt with potential labor pool.

#### 2. PREVIOUS AGREEMENT:

We initially provided emergency staffing with the understanding this was a short-term solution. We hoped to phase out as the Utility hired directly. This has yet to materialize, leading to operational inefficiencies in staffing. Currently though our spending still remains below budget (\$685,934 of a \$1,006,000 allocation).

#### 3. CURRENT CHALLENGES:

- Short contract term and fluctuating staffing levels complicate recruitment.
- Too much time is spent hiring, detracting from project execution.
- The uncertainty affects operational efficiency.

#### 4. NEW PROPOSAL:

Based on our experiences, we propose the following changes to the contract:

- **Extended Term:** Move beyond a 12-month contract to a 5-year term.
- **Increased Staffing:** Raise line positions from 3 to 4, eliminating mandatory staff reductions.
- Additional Roles: Include staffing for the Electrical Technician position.
- **General Support & Consulting:** Offer broad support as needed and consulting for ongoing Utility projects.

#### **5. FINANCIALS:**

The proposed changes lead to:

- A prospective staffing increase of 112%.
- An annual budget increase of ~78%.
- A more significant labor pool will reduce recruitment effort and improve overall effectiveness.
- We offer labor rate discounts of 3-6% for lineman positions beyond the first hire.

#### **6. CONCLUSION:**

A longer, more stable contract term is critical for recruiting and retaining quality staff. This proposed contract provides the stability needed to optimize recruitment efforts, enhance operational efficiency, and better serve the City of Unalaska. With the utility's long-term goals focused on build up for the integration and distribution of generation from the geo-thermal development project at Makushin, this term will allow focus on creating a stable support platform for the construction leading up to, during and after the project operational date.

Thank you for your time and consideration of the proposed contract.

Matthew M Scott Chief Operations Officer, EA #132367 OptimERA xG

#### **RESOLUTION 2024-03**

A RESOLUTION OF THE UNALASKA CITY COUNCIL AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH ELECTRIC POWER SYSTEMS, INC. IN AN AMOUNT NOT TO EXCEED \$130,000

WHEREAS, the City needs information about electric power generation sources to address future demand; and

WHEREAS, the City's electric rate utility consultant, Electric Power Systems Inc. (EPS) is very familiar with our generation and distribution systems; and

WHEREAS, EPS submitted a proposal to prepare a study of Unalaska's power generation options, distribution system readiness, and a variety of work required to provide the City recommendations for meeting future electric demands; and

WHEREAS, EPS needs to subcontract with other vendors to acquire expertise about permitting with the Environmental Protection Agency and others to understand opportunities and constraints; and

WHEREAS, the study proposal will cost up to \$130,000 to be paid from the electric proprietary fund.

NOW THEREFORE BE IT RESOLVED that the Unalaska City Council authorizes the City Manager to enter into an agreement with Electric Power Systems, Inc., for a cost not to exceed \$130,000, to be paid from the electric proprietary fund.

#### MEMORANDUM TO COUNCIL

To: Mayor and City Council Members From: William Homka, City Manager

Date: February 13, 2024

Re: Resolution 2024-03 Authorizing the City Manager to enter into a contract with

Electric Power Solutions, Inc., in an amount not to exceed \$130,000

**SUMMARY:** The City of Unalaska needs a plan for power generation. The geothermal project timeline is delayed and the project is not scheduled to come online anytime soon. Trident Seafoods seeks 14MW of electric power for its new facility at the end of Captains Bay Road. We need an alternate plan to provide power.

#### PREVIOUS COUNCIL ACTION: None.

**BACKGROUND:** V3 Energy LLC completed a wind power study for Unalaska around the same time the OCCP geothermal power project began to take shape. V3's results indicated there is sufficient wind in Pyramid Valley to erect wind turbines that would each generate 1MW. We paused our interest in other sources of green energy after the geothermal project began to take shape.

Now we must evaluate our options for generating up to 15 MW of power in time to be a source for Trident Seafoods' new processing facility proposed at the end of Captains Bay Road. Even if geothermal was successful, the timeline does not line up with that for the facility's opening. We need a plan for the gap, or as the new generation source for Unalaska's future. We prefer green energy solutions, however we may need to pursue diesel generation too.

Electric Power Systems, Inc. (EPS) is the company who produced our past utility studies. EPS knows our generation and distribution systems and was contacted to provide assistance with analyzing how to move forward in light of Trident Seafoods' request for energy. The EPS proposal is for \$88,340. EPS needs to subcontract for additional services regarding air permit analysis. They propose to use HMS Consulting and the cost for their work is not included in the proposal, but they estimate the cost will be \$20,000 - \$30,000. I recommend the studies be paid from the Electric Proprietary Fund since it is about the electric grid and generation capabilities. The EPS proposal is attached.

<u>DISCUSSION</u>: The V3 study estimates the cost for wind turbines to range between \$9 million for one tower and \$40 million for five. There are a variety of system and construction variables. The City is eligible for carbon reduction credits worth about 40% of the total cost, or \$16 million. The credits would be a cash payment to the City. In effect we might be able to erect 5 MW of power for about \$24 million.

We do not know an estimated cost for the work to construct a new diesel generation plant. The proposed EPS study will offer options for conventional (fossil fuel) generation to existing resources at the Dutch Harbor Power Plant, in another location yet to be determined or a combination of the two.

In addition, a distribution load flow analysis will evaluate the suitability of the existing distribution system and determine if any upgrades may be required in conjunction with the proposed power source for the Trident load. This requires new air permits from the EPA, a load flow study to model Unalaska's existing electrical system, evaluation of energy storage systems, and site options among other study items.

City Council needs to authorize the City Manager to enter into a contract with EPS for an amount not to exceed \$130,000 to be paid from the electric proprietary fund. There are ample funds in the account.

**ALTERNATIVES**: Wind generation, combination of wind and diesel generation.

**<u>FINANCIAL IMPLICATIONS</u>**: The study may cost up to \$130,000 after EPS, HMH Consulting and other associated costs.

**LEGAL**: No legal review required.

**<u>CITY MANAGER RECOMMENDATION</u>**: Staff recommends approval of this resolution.

PROPOSED MOTION: I move to adopt Resolution 2024-03.

**ATTACHMENT**: EPS Proposal

Subject: Proposal for Generation and Distribution Study for Trident Seafoods Development

Electric Power Systems (EPS) understands that Trident Seafoods intends to develop a new processing facility in Unalaska. This is a proposal to study options for adding 15MW of conventional (fossil fuel) generation to existing resources at the Dutch Harbor Power Plant (DHPP), in another location yet to be determined or a combination of the two. In addition, a distribution load flow analysis will evaluate the suitability of the existing distribution system and determine if any upgrades may be required in conjunction with the proposed power source for the Trident load.

## Scope of Work

The final deliverable will be a report that covers the following topics.

#### Air Permitting Coordination

We acknowledge that Unalaska wishes to avoid triggering a PSD study caused by exceeding approved emissions limits. Assessing how much capacity can be added to DHPP without triggering a PSD study will require coordinating with Unalaska's air permitting consultants. EPS contacted HMH Consulting (HMH) during development of this proposal and understands that HMH has performed recent modeling for the City that will be applicable to this study. It is necessary that HMH is directly involved in the study to assess technical solutions proposed by the EPS team. The cost for HMH's involvement is excluded from this proposal - it is assumed that the City would prefer to contract directly through the existing service agreement between the City and HMH. However, if that is not the case, EPS can include the cost of HMH in our Scope of Work.

#### Load Flow Study

EPS will perform electrical studies to evaluate the infrastructure needs and impacts to the system of the Trident load. We understand the impacts of the Makushin interconnection have previously been studied and a plan has been proposed by the developer's engineer. EPS will model the City of Unalaska's electrical

## Electric Power Systems, Inc.

system using ETAP software. Power flow studies will be performed to evaluate voltage regulation along with the ability of the system to adequately supply all the projected loads. The results of the power flow study will be used to assist with the evaluation of the new plant, planning for required upgrades and recommended operating configurations. If necessary, we can include the modeling of the Makushin project in this scope after we evaluate the proposed interconnection method and equipment.

#### **Energy Storage Systems**

It is expected that some type of Energy Storage Systems (ESS) will be included in the final solution. This could be in the form of a BESS or Flywheel, depending on the needs identified as part of this study. The market availability, cost, and numerous advantages of energy storage will make some level of energy storage worthwhile regardless of whether additional renewables are added to the system. In addition, ESS solutions are often the subject of federally funded grant opportunities.

#### **DHPP** Capacity Analysis

The study will seek to understand how much capacity can be gained at DHPP by lowering NOX emissions through unit replacements or SCR retrofits on existing units. Offsetting the need for new installations through retrofit of existing units has obvious cost and operational advantages. In addition, it may be the only viable pathway to increasing output without development of a new site that is physically removed from the boundaries of the Title V permit.

#### **New Generation Options**

Conventional reciprocating generation additions will be based on proven medium speed solutions such as the CAT C280 or the EMD 12SE23B. In addition, the project team will review the newer Wabtec V250MDC that has fewer proven operating hours, but some technical advantages. All options proposed will be T4 or T4i certified to allow the maximum capacity and future growth under existing emissions limits.

Depending on load profile and siting, Brayton Cycle turbine options may be suitable. Turbine options are inefficient when operating in a single-cycle mode, but can be economically viable when paired with large heating loads.

Based on the forecast load profile for the Trident plant, EPS will determine if the base load of the plant can be absorbed with existing generation and determine the impact of supplying only the peaking load with augmented generation.

#### **Alternate Site Options**

Alternate sites for power generation will be considered based on the City's input and resources. During conversations with HMH, they noted that there is an available emissions cap at the Valley Power Module and that additional emissions sources nearby would not trigger a PSD review at DHPP. This study will review that site and others to determine if future development is possible.

### Assumptions and Clarifications

### Site Visit

It is assumed that a site visit will not be required at this phase of the project.

### **Site-Specific Studies**

As a result of this feasibility level study, EPS may recommend further geotechnical, civil, right of way, and environmental studies to further define costs and final selection. Fees for site investigations are not included in this proposal. For example, if a new generation plant to serve either the base load or peaking load of Trident, is the preferred solution, EPS would recommend and coordinate additional studies as needed to site and coordinate the feasibility development of the proposed plant(s).

### **Study Coordination**

This study will require extensive involvement from the City and HMH consulting. EPS will schedule and host weekly update meetings for an estimated 8-week duration of the initial study.

### Information Required to Complete the Study

To allow efficient and timely completion of the study, the following information will be required.

- Load profile estimate from Trident Seafoods with weekly averages.
- Estimate peak load and a daily load profile at an operational peak from Trident.
- Any additional loads being considered (additional processors, etc)

Please contact me at (907) 388-9554 or irowland@epsinc.com if you have any questions.

### MEMORANDUM TO COUNCIL

To: Mayor and City Council Members
From: Estkarlen P. Magdaong, City Clerk
Through: William Homka, City Manager

Date: May 28, 2024

Re: Resolution 2024-20: Certifying the 2024 Real and Personal Property Tax Rolls

**SUMMARY:** Each year, Council certifies the tax roll pursuant to code. Adoption of Resolution 2024-20 accomplishes certification of the tax roll and Staff recommends approval.

PREVIOUS COUNCIL ACTION: Council certifies the tax roll annually.

### **BACKGROUND:**

**Real Property:** Alaska Statutes and the Unalaska Code of Ordinances provide that the assessor shall assess property at its full and true value as of January 1 of the assessment year. The full and true value is the estimated price that the property would bring in an open market under the prevailing market conditions, in a sale between a willing seller and a willing buyer, both conversant with the property and the prevailing general price levels.

The City retains a professional contract Assessor, Appraisal Company of Alaska. The Assessor reviews changes in the condition of real property, both permitted and un-permitted, new subdivision plats, and conducts a physical inspection. The Assessor also studies costs of new construction, the area's market of existing property and how these factors affect current valuations. If there are any changes in real estate market values, assessed values are adjusted accordingly, while striving to adjust the model each year to ensure every category of property is valued as uniformly as possible.

When the updated assessed values were received by the Clerk's Office, the tax roll was prepared and assessment notices mailed to property owners by March 25. The period to appeal the assessment ran for thirty days. After the appeal period closed, the contract assessor contacted the appellant to discuss the valuation, providing information and attempting to come to an agreement. The appeals were settled and have been withdrawn.

**Business Personal Property:** Each year, licensed businesses are to report the value of all business inventory, supplies, furnishings and equipment to the City Clerk. Late reports are included in the "supplemental" roll; non-filers are assessed an estimated property value and are included on the "involuntary" roll. Clerk's staff applies a standard depreciation calculation, and mails each business an assessment notice. The same appeal process applies to both business personal property and real property. No appeals of business personal property assessments were received.

After the mill rate is established and the tax roll is certified by council, tax statements will be mailed on June 28. Property tax payments are due in two installments: the first half is due on August 21, and the second half is due on October 21.

**<u>DISCUSSION</u>**: Two appeals of real property assessment were submitted this year. The appeals were settled by the assessor to the satisfaction of the property owner. There was no need to convene the Board of Equalization as the appeals have been withdrawn.

**Real Property:** Total real property value in the City is \$966,781,000 which includes property not subject to taxation due to being owned by the City, State or Federal government, native allotments and property owned by non-profit organizations. After adjusting values for allowed exemptions (property owned by disabled veterans, senior citizens, active fire/EMS volunteers; property containing fire suppression systems; partial exempt, and possessory interest), the taxable net value is \$586,049,974.

**Business Personal Property:** The total assessed value of business personal property is \$273,672,065. After applying the exemption for the first \$30,000 in value of all personal property, the net taxable value of business personal property is \$269,873,813. The following table provides additional detail, along with a comparison to last year's values:

| Assessed Values: |  | 2024                | 2023                | Difference        |

### MEMORANDUM TO COUNCIL

To: Mayor and City Council Members From: William Homka, City Manager

Date: 5/28/2024

Re: Ordinance 2024-21: A resolution of the Unalaska City Council Authorizing

Financial Support of the Aleutian & Pribilof Islands Local Emergency Planning Committee (LEPC) in the Amount of \$15,000 with Funding from the FY24

Council Sponsorship Budget.

**SUMMARY:** Resolution 2024-21 will provide \$15,000 of financial support to the Aleutian & Pribilof Islands Local Emergency Planning Committee (LEPC). Alaska has reduced/eliminated funding for LEPCs due to budgetary limitations. The City will use Council Contingency to fund this request.

### PREVIOUS COUNCIL ACTION: None

**BACKGROUND:** The LEPC organization has no source of funding for some needs and initiatives. Many Alaskan LEPC's operate through their Office of Emergency Management which affords a budget for purchases and programs. Examples include Anchorage LEPC, Kenai Peninsula Borough LEPC, Matsu Borough LEPC, Fairbanks LEPC, and Juneau LEPC.

**<u>DISCUSSION</u>**: The Aleutian & Pribilof Islands LEPC has no budget or source of income. The proposed \$15,000 sponsorship would help advance various committee initiatives, including:

- Enhance the recently built Ready, Set, Go! LEPC website by expanding its features and usability. This website is designed to be a one stop shop for emergency preparedness information in our area
- Develop a mobile application to complement the website, providing residents with accessible emergency preparedness resources
- Implement a house numbering project to improve emergency response efficiency
- Develop a Community Emergency Response Team (CERT) certified through FEMA to respond to disaster events within our community. This is important because of our area's isolation
- Providing emergency kits to students at local schools as part of our school outreach program
- Coordinate training sessions in collaboration with the State of Alaska Division of Homeland Security and Emergency Management, US National Oceanic and Atmospheric Administration/National Weather Service (NOAA/NWS), State of Alaska Department of Environmental Conservation (DEC), and other relevant entities
- Successfully complete a hazardous materials emergency plan for Unalaska involving local industry, local government, and all necessary stakeholders.

**ALTERNATIVES:** Council may choose approve, disapprove or modify the requested amount.

**FINANCIAL IMPLICATIONS:** The Council has sponsorship contingency that has \$15,000 that is available in 2024.

LEGAL: N/A

### **STAFF RECOMMENDATION:**

PROPOSED MOTION: I move to approve Resolution 2024-21...

**<u>CITY MANAGER COMMENTS</u>**: City Manager recommends approval.

### **ATTACHMENTS**:

LEPC Request Letter, Peter Gurney

### Dear Members of the Unalaska City Council,

I am writing to request the sponsorship of the Unalaska City Council for the Aleutian and Pribilof Islands Local Emergency Planning Committee (LEPC). Our committee comprises 30 emergency preparedness stakeholders from our area, dedicated to fostering a partnership between local government and industries to enhance all-hazards preparedness. The LEPC is a requirement by Federal Law and Alaska Statute due to an industrial accident that took place in Bhopal, India in 1984.

Currently, our LEPC operates without funding and faces limitations in obtaining resources to effectively achieve our objectives. With your support, we aim to bolster our community outreach efforts and strengthen our contribution to our areas emergency preparedness framework.

The proposed sponsorship in the form of \$15,000 would be instrumental in advancing various initiatives within our committee. Specifically, we intend to utilize any funding received for the following purposes:

- Enhancing our recently built <u>Ready</u>, <u>Set</u>, <u>Go! LEPC website</u> by expanding its features and usability. This website is designed to be a one stop shop for emergency preparedness information in our area.
- Developing a mobile application to complement our website, providing residents with accessible emergency preparedness resources.
- Implementing a house numbering project to improve emergency response efficiency.
- Developing a Community Emergency Response Team (CERT) certified through FEMA to respond to disaster events within our community. This is particularly important due to the isolation of our area.
- Providing emergency kits to students at local schools as part of our school outreach program.
- Coordinating training sessions in collaboration with the State of Alaska Division of Homeland Security and Emergency Management, US National Oceanic and Atmospheric Administration/National Weather Service (NOAA/NWS), State of Alaska Department of Environmental Conservation (DEC), and other relevant entities.
- Successfully completing a hazardous materials emergency plan for Unalaska involving local industry, local government, and all necessary stakeholders.

These initiatives represent critical steps in fortifying our community's resilience against various hazards and disasters. By investing in these efforts, we aim to enhance public safety and preparedness across Unalaska.

We sincerely appreciate your consideration of our request and believe that the sponsorship of our committee aligns with the city's interests in bolstering emergency preparedness efforts. If you were to sponsor the Aleutian and Pribilof Islands LEPC we would proudly list you as a sponsor on our website, social media, and other platforms.

Thank you for your attention to this matter. We look forward to the opportunity to collaborate with Unalaska City Council in enhancing emergency preparedness within our community.

Sincerely,

Peter Gurney Aleutian and Pribilof Islands LEPC chairperson@api-lepc.org
