RE: Resolution 2023-03

To: Planning Commission/ City of Unalaska

I have just today received a letter regarding Resolution 2023-03, which gives us just 3 days to respond.

I have attached a copy of my original letter dated 4/26/2023 – all of the information remains the same, other than the location requested for cell tower and additional home owner added. Basically it has moved up the street by a couple hundred feet. We are all still very strongly opposed to the cell tower being erected in a densely populated (zoned residential) area. I recommend that a location better served would be in a lesser inhabited area of Amaknak Island.

Regards,

Good morning,

I am writing in response to the resolution to erect a 40' tall cell tower right next to my home basically in my back yard. We are located directly next to the building site - 101 Chernofski.

We are opposed to this structure for numerous reasons:

1. The location is on Standard Oil Hill in a densely populated neighborhood. I feel the tower should not be constructed in a residential neighborhood. There is plenty of "vacant land" that would be better suited for an enormous and potentially dangerous structure.
2. The location is barely 40' from our home. (We already have a Tsunami siren within 15feet of our home)
3. The research suggests that there are health risks from close proximity radio frequency transmittals.

I have also added names of homeowners near the site who oppose the building of the cell tower and have approved the writing of this letter.

Respectfully,

Sherrie and Pete Doctor - 101 Chernofski

James and Pamalee Gilman - 113 and 115 Chernofski

Sergei Roraback - 438 Biorka Dr. / 500 and 502 Biroka

Jeff Garth - 114 Chernofski

Casey O'Hara - 143 and 145 Chernofski

Danny Nguyen - 112 and 114 Kashega

Andrew Murphy 46 and 48 Chernoski Drive.

Good morning, City of Unalaska Planning Commission,

I am writing in response to the resolution to erect a 40' cell tower next to property owned by myself at 46 & 48 Chernofski Drive.

This house is used for Pacific Stevedoring management housing and those employees have expressed concern over having a Cell tower so close to where they live. One of the managers recently had a baby. Its not hard to find information on the web regarding health concerns living near a cell tower.

"Studies done in several countries have reported elevated rates of cancer, especially leukemia, in residents living near to cell towers."

Myself and on behalf of Pacific Stevedoring employees we feel it makes more sense to keep the cell towers in unpopulated areas.

Sincerely

Andrew Murphy
